Education

2019
B.E (CSE)
Mumbai University

2014
12th (CBSE)
DAV Public School, Airoli

2012
10th (CBSE)
DAV Public School, Airoli

Software Skills

- Microsoft Azure
- Azure DevOps
- Networking
- IaC (Terraform, ARM, Azure Bicep)
- Docker and Kubernetes
- Virtualization (Azure Virtual Desktop)

Experience

2023 - Present
LTIMindtree | Mumbai

Senior Product Engineer

- Orchestrated the **cloud migration and modernization** for a leading wealth management company, improving transition readiness and operational scalability.
- Implemented **Dynatrace** in **Azure Kubernetes Service (AKS)** clusters using **Azure DevOps pipelines and Helm charts**, enhancing monitoring, observability, and alerting capabilities.
- Integrated **SonarQube and OWASP ZAP** into DevOps pipelines to enforce security best practices, improving code quality and aligning with DevSecOps compliance standards.
- Provisioned and managed infrastructure using **Terraform** and Azure DevOps pipelines, embedding SonarQube scanning for security and compliance in Infrastructure as Code (IaC) workflows.
- Configured and optimized **Elasticsearch** clusters, improving data indexing, search performance, and real-time analytics capabilities for critical business operations.
- Led strategic server migrations and cost optimization initiatives, leveraging Azure Cost Management to achieve a 20% reduction in operational expenses through effective FinOps practices.
- Modernized legacy systems using **Azure PaaS and Containers**, reducing infrastructure costs by 30% while improving scalability, resilience, and system performance.

2021 - 2023
IFI Techsolutions | Mumbai

Technical Consultant (DevOps)

- Spearheaded adoption of CAF methodologies, reducing hosting expenses by 30% and accelerating time-to-market by 50%.
- Modernized applications using Azure PaaS and Containers, achieving 30% cost reduction and improved scalability across 10+ projects.
- Supervised a team of 5 developers, configuring **Azure infrastructure with Terraform** and CI/CD pipelines.
- Designed and configured applications such as Asset Management and Chatbots using Microsoft Azure and OpenAI ChatGPT.
- Orchestrated **Azure Key Vault** setup and key management policies with **Azure Blueprint and Azure Policies** for compliance.
- Conducted Proof of Concepts (POCs) and deployed customer applications on Azure Kubernetes Services and Docker.
- Streamlined organization onboarding through Azure Logic App and **Power Automate** automation.
- Coordinated presales discussions on Azure DevOps solutions, leading a team in **CCOE and Marketplace offerings.**

Certifications

Security, Compliance and Identity Fundamentals (SC-900)
Issued by - Microsoft

Azure Fundamentals (AZ-900)
Issued by - Microsoft

Hobbies

2020 - 2021
IFI Techsolutions | Mumbai

Senior Cloud Engineer

- Orchestrated configuration of Azure-based Virtual IT environments for Manufacturing and Investment clients.
- Devised solutions for troubleshooting **Virtualization (AVD) and Virtual Machine** issues, enhancing system reliability.
- Designed and implemented automation using **Azure Automation Runbooks** and PowerShell scripts, optimizing deployment efficiency.
- Spearheaded deployment of **ADDS and Domain Controllers**, enabling secure remote hiring.
- Coordinated remote work solutions for 6000+ users in a prominent Indian global IT company.

2019 - 2020
IFI Techsolutions | Mumbai

Cloud Engineer

- Conducted business analysis leveraging deep product knowledge to design effective solutions for client requirements.
- Configured **Azure Virtual Networks**, enhancing network security through **NSGs and DNS settings.**
- Created a professional website for a Wedding services company using WordPress and Microsoft Azure.
- Conducted PoCs on **Azure IoT, J-Meter stress testing, Azure Cognitive Services, and Azure Maps.**
- Awarded "Badge of Honor" for implementation handling and project delivery for Fortune 500 clients.
- Organized workshops and training sessions on Azure Virtual Desktop and DevOps for public sector clients.

Highlights

- Awarded "**Badge of Honor**" for implementation, handling and project delivery Fortune 500, Manufacturing and Investment companies
- Organized a workshop & training of around **CDAC (Centre for Development of Advanced Computing)** – 60 participants and **MPSEDC (M.P. State Electronics Development Corporation Ltd.)** – 210 participants on Azure Virtual Desktop and DevOps (2021) and several public sector clients.
- Awarded "**Pat on the Back**" for implementing and maintaining the Azure infrastructure for LTI (2021)
- Recognized and awarded for being one of the key contributors in the team that helped the organization attain the **Azure Expert MSP Partner certification**
